

we won't be pushed out:

organizing against corporate housing development

tuesday october 3, 7-10 PM
tranzac club, main hall
292 brunswick avenue

physically accessible space
(unfortunately, no ASL interpreter)
masking encouraged

people over profit

Across Toronto, we have seen the damaging impact on housing as **developments displace communities** in the interest of profits. Organizations across the city are **fighting back** against these developments, making demands for social housing and placing people over profit.

This event will **bring together community members** working with various organizations to unite in our shared struggle for the city. We will share the space to learn from each other so we can be empowered to **win our fights collectively**.

Alongside the panel, we will animate the space with **tabling** from organizations to share **creative forms of resistance** and provide interactive ways to contribute artistic agitprop materials, in partnership with the Toronto Zine Library.

in partnership with 230 Fightback, Justice for Queen and Close, South Junction Triangle Grows, Toronto Zine Library, and more TBA
